Oxon Technology, Yonkers,  
New York, Zip Code 10710

## 1. Oxon Anti Slip Treatment (For Wet Slippery Surfaces)

This product is an invisible floor chemical treatment, (not a coating) the effects of which can only be seen under a microscope. This chemical treatment alters the exiting surface by creating thousands of micro-pores. When wet these micro-pores are filled with water and the pressure of footfall squeezes out the water creating hundred of vacuum cups sucking the foot onto the surface thus radically reducing the possibility of the foot slipping

## Product Range

1. Oxon Safe Grip (5 years warranty)

2. Oxon Sure Grip (1 Years warranty)

Our anti slip treatment works on all kinds of stone or tiles floors. The recommended areas are Kitchen, Stairs, Bathroom swimming pool and other slippery floors which become slippery when wet This treatment is suitable for indoor outdoor floorings.
